

Landscape Installer – Entry- to Mid-Level (Landscape Division)

The Landscape Installer position is responsible for working on a team providing safe and client focused services to both new and long-term clients. Each crew may be required to work on multiple sites in a week. Out of town work is sometimes required on a rotating basis, dependent on current job schedule. The Landscape Installer will install landscape elements in both residential and commercial settings, including digging, trenching, laying irrigation pipe, placing concrete pavers, planting shrubs and trees, laying sod lawns, installing synthetic turf, and other duties as required. Because of the needs of this position, the ability to lift up to 50lbs independently, use team-lift techniques for heavier lifting, maneuver in and out of trucks/trailers safely, use of equipment appropriately and safely, and communication with direct supervisor and other members of management team are necessary.

Work will be performed outdoors with varying weather conditions. This position may be required to work in adverse weather, including high-heat, high winds, and heavy rain. Exceptions include excessive heat, freezing temperatures, smoke events, and other situations as necessary.

This is a full-time position that qualifies for health insurance, PTO, and retirement. Landscape install/construction experience is preferred but not required. Qualified candidates are required to pass a pre-employment drug screening. Valid Oregon driver's license required.
